If the final result in the first call is lower than 5.0, the student will have to repeat the entire course in the exams of the second and/or subsequent exams. - If a student does not take the first midterm on the indicated date (normally in March), he/she will not be able to take it on the same day of the second midterm (normally at the end of May, beginning of June). Officially justified cases will be analysed and solved individually. - The teacher reserves the right to value the "attitude (etc.);" criteria according to how she considers professionally appropriate, from ethics and responsibility. In case of discrepancy of opinions between the teacher and the student, the teacher's criteria will prevail. - All these criteria for the evaluation of this subject will be explained, with this level of detail, also during the first day of class. If some students do not attend the class this day, and due to their decision, they loss some relevant information, they will be responsible for the potential consequences of it for them.
